Comprehensive Module Suite

WeekMate offers a comprehensive ecosystem of business management tools, all available under our single revolutionary model.

HRMS

Automate hiring, attendance, and performance reviews in one connected system

TaskHub

Plan projects, track time, and hit deadlines without the spreadsheet chaos

CRM

Turn leads into deals with a visual pipeline built for service teams

Connect

Keep your whole team aligned with real time chat, calls, and file sharing

Asset Tracking

Track every asset from purchase to disposal with branch-wise visibility and complete lifecycle history.

VMS

Digitize front-desk check-ins with secure visitor logs and instant host alerts

WHRMS (Human Resource Management System)

Empowering Through Personalized HR Tools

WeekMate HRMS brings the entire employee lifecycle into one connected platform. From hiring to exit, it automates payroll, attendance, and performance reviews so HR teams spend less time on paperwork and more time on people.

- Startups
- Hybrid Teams
- Growing Enterprises
- Multi-Branch Businesses

HRMS – Key Features

Core HR

Manage employee records, hierarchy, attendance, and leave in one centralized system with company-wide announcements.

Payroll & Compliance

Run accurate, on-time payroll with automated tax deductions and built-in PF, ESI, and TDS compliance.

Performance & Growth

Track KPIs, run 360° surveys, and set transparent goals with visual dashboards.

Onboarding & Offboarding

Automate document collection, task assignments, and joining workflows, plus structured exits.

Employee Self-Service

Employees manage profiles, apply for leave, and download payslips via a mobile app.

Advanced Controls & Mira AI

Asset tracking, learning management, multi-entity support, and instant HR answers via Mira AI.

Win and Retain Clients With Smart Cloud CRM

WeekMate CRM turns your sales pipeline into a revenue-generating machine. Built for service-led teams, it replaces manual tracking with AI-powered follow-ups, a visual pipeline, and a complete customer timeline, giving you deep relationship insight from first contact through long-term retention.

- Service-Led Teams

- Growing Businesses

- Indian Enterprises

- Sales Organizations

CRM- Key Features

Sales Pipeline

Track Every Lead From First Contact To Final Close With Visual Pipelines Across Multiple Products Or Services.

Customer Management

W Asset Tracking

Complete Visibility Into Every Business Asset

WeekMate Assets brings your entire asset lifecycle into one connected platform. From purchase to disposal, it automates registration, allocation, maintenance, and depreciation tracking, so teams spend less time chasing spreadsheets and more time on what matters.

- IT Teams

- Facility Managers

- Finance Teams

- Multi-Branch Businesses

Asset Tracking – Key Features

Asset Register

Maintain A Centralized Register With Branch-Wise Tracking And Classification So Every Asset Is Organized And Easy To Locate.

Lifecycle Tracking

Monitor Each Asset From Acquisition To Retirement With A Complete History Log Of Every Change And Movement.

Asset Allocation

Assign Or Reclaim Assets To Employees In A Few Clicks, With Full Records Of Who Holds What And When.

Maintenance & Warranty

Schedule Repairs And Track Warranty Status So Assets Stay Functional And Costly Downtime Is Avoided.

Scrap & Disposal

Record Retirements And Write-Offs With A Clear Disposal Trail For Audit-Ready Compliance.

Financial Intelligence

Track Asset Value, Depreciation, And Costs In Real Time For Complete Financial Visibility And Smarter Budgeting Decisions.

Complete Visitor Management for Every Front Desk

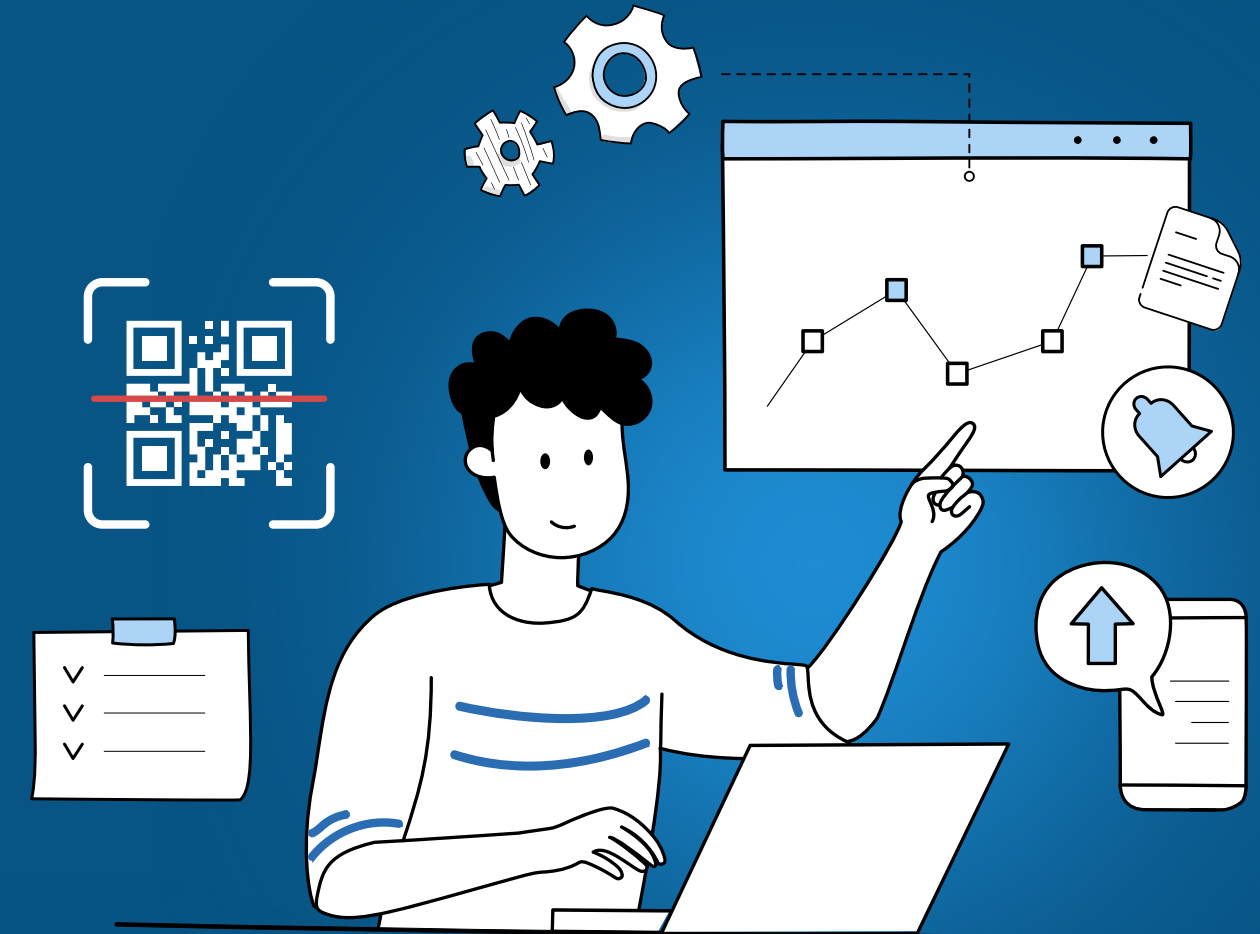

From the moment a visit is requested to the moment a guest checks out, WeekMate VMS automates the entire workflow, approvals, QR passes, real-time alerts, and reporting, so your front desk runs on one connected system instead of a logbook and a spreadsheet. It scales from a single reception desk to a multi-branch, multi-company organization.

- Receptionists

- Hosts & Employees

- Administrators

- Multi-Branch Organizations

VMS - Key Features

Check-in & Entry

Generate Unique QR Passes And Enable Contactless Visitor Check-In With Secure, Duplicate-Free Entry Records.

Approvals & Scheduling

Route Visit Requests For Quick Mobile Approvals With Automatic Conflict Checks Against Host Schedules.

Notifications & Access

Notify Hosts, Receptionists, And Security Instantly Via Mobile Or Desktop With Role-Based Access Throughout Every Visit.

Self-Service & Configuration

Enable Guest Pre-Registration While Admins Customize Visitor Forms And Settings Without Coding.

Analytics & Compliance

Monitor Visitor Traffic With Live Dashboards And Ensure Compliance With GDPR And ISO 27001 Standards.

Data, Bulk Operations & Integrations

Import Or Export Visitor Data And Connect With ERP, HR, And Access-Control Systems Via Secure APIs.
